## NAV-900 Guidance Controller: New Software Activation Bundles

Beginning **the first week of November**, updates have been made to the software activation licenses required for the base hardware model of the Trimble NAV-900 guidance controller to access the basic functionalities of GNSS.

The software activation licenses for the NAV-900 are now available bundled with GNSS accuracy levels of **Basic**, **Intermediate**, and **High** and no longer have to be ordered by specific region. A new *All Region* protection license will be used in its place.

All one (1) year RTX subscriptions and promotions have been decoupled from the base activation bundles and are now managed separately from the NAV-900 base hardware and software activation.

The NAV-900 guidance controller base hardware unit can still be ordered with the same part number as before (130000-02).

# NEW!

- Software activation bundles with new part numbers for each accuracy level (**Basic**, **Intermediate**, and **High**).
- Simplification to one All Region unlock Global Software Activation License (for Base Hardware).
- Competitive pricing for purchasing a bundle inclusive of Accuracy License (Intermediate and High).
- RTX promotions for select activation bundles.

## New Part Numbers and Pricing!

Part Number	Description	List Price	
		USD	Euro
97591-30-00	License Bundle, Software Activation, NAV-900, Basic Accuracy, All Regions, No Expiry	\$1,600	€1,455
97591-30-01	License Bundle, Software Activation, NAV-900, Intermediate Accuracy, All Regions, No Expiry	\$4,455	€4,055
97591-30-02	License Bundle, Software Activation, NAV-900, High Accuracy, All Regions, No Expiry	\$7,175	€6,525

## Accuracy Upgrade Licenses Currently Available on the Store

To upgrade a NAV-900 accuracy level, choose from the following options:

Qty	Part Number	Description
1	96551-02	License Receiver-Multi Type GNSS: <b>Basic to Intermediate</b> No Expiry (Required for CenterPoint RTX Standard)
1	96551-03	License, Receiver-Multi Type, GNSS: <b>Intermediate to High</b> , No Expiry (Required for RTK, VRS, or CenterPoint RTX Fast)
1	96551-04	License Receiver-Multi Type GNSS: <b>Basic to High</b> No Expiry (Required for RTK, VRS, or CenterPoint RTX Fast)

## Retiring Part Numbers - Software Activations

The following software activation bundle part numbers have been retired from the PTx Trimble Store:

Part Number	Description ( <i>Retired from Purchase</i> )
97591-00-00	License Bundle Software Activation Receiver-Multi Type, 1YR RTX, All Regions, No Expiry
97591-01-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, EU Region, No Expiry
97591-02-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, Aus/NZ Region, No Expiry
97591-03-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, N America, No Expiry
97591-04-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, Nth LATAM, No Expiry
97591-05-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, Sth LATAM, No Expiry
97591-07-00	License Bundle, Software Activation, Receiver-Multi Type, 1YR RTX, UA CIS, No Expiry

### Exceptions

- If previously purchased and in dealer inventory, these software activation bundles can **still** be used to activate a NAV-900 guidance controller.
- As part of a transition to the updated NAV-900 activation process, all activation licenses purchased before **01 November 2024** and in your existing inventory will continue to follow the original activation and renewal process. These licenses will follow their standard expiration date.
- In cases where these software activation bundles might still be required to honor a deal, they are still orderable direct item entry (DIE) until **31 December 2024**.
- Any part number above already ordered and tied to shipsets (even if in backlog), will continue to be delivered as purchased.
- Customers currently on the CenterPoint RTX Attach Program, can continue to renew their service at current renewal pricing through Trimble Positioning Services.

**Note:** Any software activation bundle currently on order or in dealer inventory must be used at the earliest opportunity!

These bundles will **expire** after one (1) year from the initial purchase date if not activated. Expired bundles **cannot** be recovered.
